

NetMobile

part of the NetTools productivity suite
for NetPracticePM™ by Noteworthy Medical Systems

If you have access to the Internet, you have instant access to patient data, hospital lists and appointment schedules with NetMobile, including the ability to capture charges at the point-of-service.

NetMobile is web-based software that works on Windows® based phones, iPhone®, Blackberry® and more. NetMobile allows providers to carry their patient data, hospital lists and appointment schedules with them, in addition to capturing charge data at the point-of-service, office, exam room or the hospital.

Because NetMobile is a web-based application, there is no installation required—**NetMobile is instantly usable by any authorized client.**

NetMobile's intuitive tap-and-click design means ease-of-use for the provider. Even better, the ability to share patient data between the provider's mobile device and the practice billing office is instantaneous—there's no missing data, no hassles with synchronization.

In just minutes, you could be experiencing the freedom and increased productivity of NetMobile!

NetMobile

features

- ▶ Web-based
- ▶ Runs on virtually any internet-capable device including Windows®-based phones, iPhone®, Blackberry® (v4 and newer) and more
- ▶ Real-time application means no need to continually sync
- ▶ Intuitive, easy to use tap and click design
- ▶ Practice-wide inpatient census
- ▶ Multiple institution support
- ▶ Shows all patients recently treated
- ▶ Shows all scheduled patients
- ▶ Data on all practice patients in hospital
- ▶ Provides a summary of visits, procedures and diagnoses
- ▶ Shows patient alerts, internal comments and hospital notes
- ▶ Updates are included within NetPracticePM service packs, eliminating the need to separately update mobile devices

benefits

- ▶ Requires no installation—instantly usable by any authorized client
- ▶ Data is instantly visible to NetPractice users and vice-versa
- ▶ Eliminates lost charges by 6-10%
- ▶ Improves coding accuracy
- ▶ Speeds reimbursements by 15 - 20 days
- ▶ Ensures timely filing
- ▶ Reduce physician time when recording charges
- ▶ HIPAA compliant secure data transfer
- ▶ Enhances physician workflow
- ▶ Always in sync with NetPracticePM

the NetMobile interface

Capture charges with NetMobile as you make rounds.
