

Point-of-Care Patient Payment Collection

NetPay

powered by mPay Gateway™
part of the NetTools productivity suite
for NetPracticePM™ by Noteworthy Medical Systems

**Robust web-based solution
for NetPracticePM that
automates patient payment
at the point of care.**

Although physicians typically receive payment for services directly from health insurance carriers, more healthcare payments are shifting from a third-party payers model to a retail model. With patient payment responsibility increasing, physicians must collect more from patients at the time of service. As a result, **technology that improves the payment and collection process** is quickly becoming crucial to support this shift in the market.

The **NetPay** solution powered by mPay Gateway™ is a web-based application enabling collection of all patient payment obligations at the point of service *when patients are still in the office*. NetPay allows you to electronically collect co-pays at check-in/out as well as capture patient payment information for automatic and immediate collection of patient balances upon receipt of remittance advice—without ever sending a bill or dealing with collections.

NetPay offers your medical practice all the tools necessary to drive down expenses, increase collections and improve payment workflow efficiencies.

NetPay

powered by mPay Gateway™

features

- ▶ Automates patient payments: swipe the patient's payment card and obtain the patient's authorization, enabling you to collect the exact amount a patient owes when you receive the provider remittance advice
- ▶ Offers all the tools necessary to drive down expenses, increase provider revenues, and improve payment workflow
- ▶ Point of Service Calculator sets up in minutes and looks just like your current patient charge ticket
- ▶ Enables pre-calculation of patient responsibility for an office visit and any procedures
- ▶ Designed exclusively for the healthcare industry—HIPAA compliant
- ▶ Fully compliant with Payment Card Information Data Security Standards (PCI/PADSS)
- ▶ All patient and credit card information transmitted via NetPay is fully protected
- ▶ Supports major credit cards Visa®, MasterCard®, American Express® and Discover® Card

benefits

- ▶ Easy to implement
- ▶ Fewer outstanding amounts due
- ▶ Financial dealings with patients are completed while the patient is still in the office
- ▶ Reduces bad debt exposure
- ▶ Eliminates expense of mailing multiple statements
- ▶ Decreases overall costs associated with monthly billing and collection expenses
- ▶ Patients no longer have to deal with statements and bills months after their visit
