

# Automated Eligibility Verification

## NetVerify

part of the NetTools productivity suite  
for NetPracticePM™ by Noteworthy Medical Systems

**NetVerify saves time and increases your reimbursements by automatically checking patient eligibility.**

NetVerify is a powerful tool that provides real-time patient insurance eligibility and benefits information for most health plans. NetVerify instantly connects to the largest group of commercial and government payers in the industry to provide a wealth of real-time patient information. This solution meets HIPAA compliance standards, and the privacy of transactions is protected with the highest level of Internet-based security.

NetVerify has the ability to verify patient eligibility for a single individual—during registration or check-in or for an entire day's schedule. This feature is especially attractive for physician practices, medical groups and billing services. What used to take a 10-minute phone call can now be done in seconds. Stop eligibility related denials today with NetVerify.
